THE MACKINTOSH® BRAND

FURNITURE AS A WORK OF ART

Throughout his life the designer, architect and artist Charles Rennie Mackintosh was influenced by the modernist ideas emerging from the industrial revolution. His furniture and design focused on the quality of the space to evoke a calming, relaxed feeling to an interior.

Mackintosh preferred the use of simple form and natural materials for his designs, building around the need of people as individuals who desired furniture that was not purely functional, but also a work of art.

True to their namesake **MACKINTOSH** kitchens are designed with flair and meticulous attention to detail. The **MACKINTOSH** philosophy now lives on through this inspired collection of kitchens offering a combination of beauty, durability and functionality.

GREAT BRITISH DESIGN

British design is recognised the world over for innovation and creativity.

When you purchase a **MACKINTOSH** kitchen, you acquire an exceptional British kitchen to suit your lifestyle. Our range of quality kitchens are manufactured using the finest materials in our purpose built factory.

Our quality kitchens are robust and durable with a stunning array of styling options. Our rigid cabinets are made to your order using precision glue and dowel construction creating a true rigid kitchen, with squarer, stronger cabinets and no visible screws or fixings.

Our kitchens have been awarded the Made in Britain status.
